

Use
Med Officer / Prev. Med Officer

bb-2
[redacted], Dep Div Surgeon, In unit 1 yr,
in country 1 yr, LTC

1. Some D.O.s men
Cat I Care, Ech care provided by Corps.

190th ESB provided 241 care,
at DIF if cat III was needed,
Det sent to the CASH.

Prev Med done by Corps - 14 Med Det
5th Corps.

When writing annexes, they knew
what you were falling into. Didn't
know what to expect regarding
combat.

2. They are a staff section - no
training specific to D.O. or med
care. Informal classes.

4. Staff didn't do it. Second hand -
Tried to go to every place once
a month.
- Look for Field Sanitation, vectors,
cleanliness, # of latrines, food,
kitchen, garbage disposal, general
animals.

Ech 1 care would ~~look~~ / care

DOD-018570

For the DIF, Prev Med is a big deal. Celis know it's a big deal.

5. Don't know if DIF has field sanitation team, cart.

6. Brief once over by provider. Used to have a PA to do the Cat I. Not sure if a PA is there. Take to appropriate level of care if he has communicable disease - depends on condition of det.

8. BN aid station @ DIF - performs level one care. Never heard of anyone bc.

Receive M Health, optometry - get good care - same as US soldiers from the same care provider.

9. Unk

11. They have segregated sick or wounded det in the past.

12. The DIF probably maintains det med records. Doctor writes ¹⁴⁹⁹

13. Unk.

15. Teach the MPs what to look for, such as TB. Taught how to look for symptoms. Standard teaching.

16. 528 Combt Stress Control Team just left. Corps element. They handled stress issues for the DIF. There is soldier awareness on how to seek help - advertised.

17. Once dead, handed over to Iraqi family.

Iraqi is killed - can do autopsy in city. Surgeon goes out & gets results.

For DIF death - ~~autopsy~~ in Kuwait doesn't do. ~~He~~ Doesn't know what happens. Thinks there have been deaths in DIF but doesn't know details -

18. Defer

19. Get to med fac to confirm or deny - if it is suspicious inform CofC.

Most handled locally.
